## No Risk Contingent Fee Structure

RE: Pricing of Retiree Drug Subsidy Re-opening

Dear Plan Sponsor

The re-opening of a Retiree Drug Subsidy case is priced at **\$0 cost** to the client.  
The contingent fee structure works as follows:

\$0.00 engagement fee at time the client signs the “**letter of intent**” and then the “**contract**” with RDS Services, LLC to re-open up to four reconciled years of Retiree Drug Subsidy submissions. Upon successful completion of the Retiree Drug Subsidy Re-opening, RDS Services will participate in the additional Retiree Drug Subsidy recovery at the rate of twenty five percent of the additional recovery with no cap.

### Participation Example:

#### Step 1

2011 to 2014 Retiree Drug Subsidy payments to plan sponsor by CMS	\$100,000
---	-----------

#### Step 2

Re-opening recovers additional subsidy of 10% of prior payments	\$10,000
---	----------

#### Step 3

RDS Services, LLC contingency fee is 25% of step 2	\$2,500
--	---------

#### Step 3

Recovery payments to plan sponsor is 75% of step 2	\$7,500
--	---------

Please note that the fee for the re-opening is contingent on a recovery. Therefore, the re-opening process has no risk to the client to participate in the program.

I hope this answers your question and proves helpful.

Please call me with any questions and I look forward to working with you in the future on all of your Retiree Drug Subsidy cases.

Sincerely,

George Fox, LUTCF  
National Sales Manager  
RDS Services, LLC
